

# **Satellite Meeting “10<sup>th</sup> International Veterinary Immunology Symposium”**

**August 28 – September 1, 2013  
Milan, Italy,**

Satellite meeting organized in conjunction with the 15<sup>th</sup> International Congress of Immunology  
August 22-27, 2013  
Milan, Italy

-0-

## **Scope of the Meeting**

The meeting will be organized on behalf of the Veterinary Immunology Committee (VIC) of IUIS and hosted by Università degli Studi, Milan. As in the previous editions, the symposium will be an international forum for the presentation and discussion of advances in veterinary immunology, with emphasis on both basic and applied research, and repercussions on disease control in farm animals and pets. Large animal models in biomedical research will be discussed as well. The composition of the Scientific Advisory Committee will be finalized soon to address the scientific program. Emphasis will be put in creating a suitable environment for a fruitful interaction among researchers of many different Countries and diverse experience. We look forward to seeing you in Milan at both IVIS and at ICI 2013.

This Satellite Meeting will cover various currently important topics in veterinary immunology, e.g. the following:

- Innate immunity
- Inflammation and cytokines
- Regulation of the immune response
- Immunogenetics and molecular immunology
- Large animal models
- Mucosal immunology
- Veterinary vaccinology
- Veterinary clinical immunology

The Satellite Meeting will have a poster session as well as speakers and keynote speakers.

## **Meeting venue**

Università degli Studi, Milan, Italy

## **Registration and abstract submission deadline**

May 15th, 2013

## **Local Organizing Committee**
